

### Bluetooth® UNIT **UT-137A**

#### About the UT-137A

The UT-137A is a Bluetooth unit that is installed in a transceiver to communicate with other Bluetooth devices. Refer to the transceiver's instruction manual or ask your dealer for details regarding the installation and use of the Bluetooth unit with the transceiver.

**NOTE:** When you remotely operate the transceiver using a mobile device or Bluetooth Low Energy device, **BE SURE** to check your local regulations.

#### Electromagnetic interference

When you use a Bluetooth device, pay attention to following: Bluetooth devices operate on the 2.4 GHz band.

The 2.4 GHz band is also used by other devices, such as wireless LAN products, microwave ovens, RFID systems, amateur radio stations, and so on.

When using a transceiver with the Bluetooth unit installed and turned ON near such devices, interference may occur, causing a decrease in communication speed, and an unstable connection.

In such cases, use the transceiver with the Bluetooth unit away from the other devices, or stop using those devices.

Icom is not responsible for the destruction, damage to, or performance of any Icom or non-Icom equipment, if the malfunction is because of:

- Force majeure, including, but not limited to, fires, earthquakes, storms, floods, lightning, other natural disasters, disturbances, riots, war, or radioactive contamination.
- The use of Icom products with any equipment that is not manufactured or approved by Icom.

Icom and the Icom logo are registered trademarks of Icom Incorporated (Japan) in Japan, the United States, the United Kingdom, Germany, France, Spain, Russia, Australia, New Zealand and/or other countries.

The Bluetooth word mark and logos are registered trademarks owned by the Bluetooth SIG, Inc. and any use of such marks by Icom Inc. is under license. Other trademarks and trade names are those of their respective owners.

All other products or brands are registered trademarks or trademarks of their respective holders.

Thank you for choosing this Icom product.  
**READ ALL INSTRUCTIONS** carefully and completely before using this product.

#### Explicit definitions

WORD	DEFINITION
<b>⚠ DANGER!</b>	Personal death, serious injury or an explosion may occur.
<b>CAUTION</b>	Equipment damage may occur.
<b>NOTE</b>	If disregarded, inconvenience only. No risk of personal injury, fire or electric shock.

#### Precautions

**IMPORTANT:** The Bluetooth communication range may vary, depending on your operating environment. Microwave ovens or Wireless LANs may cause interference. In that case, stop using those devices or move away from them. This Bluetooth headset has a usable range. If communication is unstable, move within the range.

**⚠ DANGER! NEVER** use a transceiver with the Bluetooth unit installed and turned ON near medical equipment, or near a person who has a pacemaker. Radio waves from the transceiver may cause interference, or endanger their life.

**CAUTION: DO NOT** use a transceiver with the Bluetooth unit installed and turned ON near microwave ovens. Interference may occur.

**CAUTION: DO NOT** drop, impact or vibrate the unit, before installing. This may damage to the unit.

**CAUTION: DO NOT** put anything on top of the unit, before installing.

**CAUTION: DO NOT** make any changes or modifications to the unit.

**NOTE:** You may not be able to use some Bluetooth device's function, even if the unit is installed.

#### Specifications

- Bluetooth version: 5.3
- Transmission Output: Class 1
- Supported profiles: HFP, HSP, SPP, GATT (Serial) over LE
- The maximum number of paired Bluetooth devices: 7 devices\*
  - \* Either headsets or mobile devices are maximum 4 devices, and the combination is 5 devices in total.
  - \* Bluetooth Low Energy devices are maximum 2 devices.
- Dimensions (including connectors and modules): 20.0 (W) × 35.0 (H) × 5.8 (D) mm (0.79 (W) × 1.38 (H) × 0.22 (D) inch)
- Weight: Approximately 3 g (0.11 oz)
- Device Name: Icom BT-003 (default value)
- Passkey: 0000 (four zeros)

The specifications are subject to change without notice or obligations.

## FCC and IC information

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**CAUTION:** Changes or modifications to this device, not expressly approved by Icom Inc., could void your authority to operate this device under FCC regulations.

This device complies with Part 15 of FCC and Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.  
CAN ICES-3 (B)

Le présent appareil est conforme aux la partie 15 des règles de la FCC et CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Cet émetteur ne doit pas être co-localisé ou fonctionner en conjonction avec une autre antenne ou émetteur.  
NMB-3 (B)

## Disposal

The crossed-out wheeled-bin symbol on your product, literature, or packaging reminds you that in the European Union, all electrical and electronic products, batteries, and accumulators (rechargeable batteries) must be taken to designated collection locations at the end of their working life. Do not dispose of these products as unsorted municipal waste. Dispose of them according to the laws in your area.

### • For Mobile Use

This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines and RSS-102 of the IC radio frequency (RF) Exposure rules. This equipment has very low levels of RF energy that it deemed to comply without maximum permissive exposure evaluation (MPE).

Cet équipement est conforme aux limites d'exposition aux rayonnements énoncées pour un environnement non contrôlé et respecte les règles les radioélectriques (RF) de la FCC lignes directrices d'exposition et d'exposition aux fréquences radioélectriques (RF) CNR-102 de l'IC. Cet équipement émet une énergie RF très faible qui est considérée conforme sans évaluation de l'exposition maximale autorisée.

### • For Portable Use

This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines and RSS-102 of the IC radio frequency (RF) Exposure rules. This equipment has very low levels of RF energy that are deemed to comply without testing of specific absorption ratio (SAR).

Cet équipement est conforme aux limites d'exposition aux rayonnements énoncées pour un environnement non contrôlé et respecte les règles les radioélectriques (RF) de la FCC lignes directrices d'exposition et d'exposition aux fréquences radioélectriques (RF) CNR-102 de l'IC. Cet équipement émet une énergie RF très faible qui est considérée conforme sans évaluation du débit d'absorption spécifique (DAS).

**NOTE:** After installing the Bluetooth unit, place the FCC/IC ID label on the outside of the transceiver.

## About CE and DOC

Hereby, Icom Inc. declares that the version of UT-137A which have the "CE" symbol on the product, comply with the essential requirements of the Radio Equipment Directive, 2014/53/EU, and the restriction of the use of certain hazardous substances in electrical and electronic equipment Directive, 2011/65/EU.

The full text of the EU declaration of conformity is available at the following internet address:

<https://www.icomjapan.com/support/>

### Below statement is for UKCA purpose only

United Kingdom Authorised Importer:

Icom (UK) Ltd.

Address: Blacksole House, Altira Park, Herne Bay, Kent, CT6 6GZ, U.K.

To obtain the UKCA Declaration of Conformity, please contact Icom UK Limited by email at [info@icomuk.co.uk](mailto:info@icomuk.co.uk) or alternatively call + 44(0) 1227 741741.

## Restricted country of use

No countries restrict the operation of this equipment according to Radio Equipment Directive.
